

TRADE FAIR TRANSPORT LOGISTIC 2017

Dear customers and business partners!

Thank you for your visiting our stand No. 126 in Hall B5 at the international trade fair Transport Logistic 2017 in Munich.

We greatly appreciate your interest in our assortment of security plastic and metal seals. We are always at your disposal, do not hesitate to contact us for additional details or inquiries.

We are looking forward to our future mutual cooperation!

EUROSEAL a.s.:

EUROSEAL® company has been a manufacturer and supplier of security products for 20 years. Over that time there were developed own technically advanced products that meet the highest requirements for security of modern days. All the EUROSEAL® seals have unique designs and sophisticated security solutions that prevent tampering efforts. EUROSEAL® constantly works on developing new products and actively seeks innovative solutions of customers needs. Since company establishment we maintain databases of individual customer's marking and thereby guarantee the uniqueness of each one manufactured seal. To provide higher quality assurance the company implemented and operates Quality Management System certified to comply with ISO 9001:2008 and Information Security System certified to comply with ISO 27001:2013.
